Full reserve is a planning amount, not a payment obligation. Simplified estimate; review with a CPA. **usafreelancecalculator.com**

Planning scope: one business and W-2 income, base standard deductions only. No AMT, EITC, capital-gain/dividend tax, loss carryovers or age/dependent adjustments.
You Keep is income after modeled taxes, before retirement funding. Modeled annual cash after the $10,000.00 contribution: $54,312.53. Retirement savings remain assets, not spending cash.
Total modeled annual taxes are not an outstanding IRS balance. Ordinary W-2 payroll taxes: $0.00 (already associated with wages). Federal income/SE/additional taxes after refundable credits, excluding ordinary W-2 payroll and state tax: $15,687.47. Estimated federal withholding: $0.00. Selected annual federal planning reserve after withholding: $15,687.47; actual payments and filing circumstances may differ.
Retirement assumes remaining eligible plan room; other-employer deferrals, catch-up and combined-plan rules are excluded.
